QUICK GUIDE:
SIM Enrollment and Leave Codes

Version 1.2 FINAL
CPS Enrollment (Entry) Codes

CPS enrollment codes are used when a student is enrolling into a Chicago Public, Contract, or Charter School.

The code used indicates the student’s last school of attendance. The CPS enrollment codes are highlighted in the following screen capture. See the table below for a description of each code.

<table>
<thead>
<tr>

CPS Leave (Exit) Codes

CPS leave codes are used when a student is being withdrawn from school membership. The screen capture below highlights each valid leave code. See pages 3-10 for a description of each code and detailed procedures that should be followed when withdrawing a student, to include properly verifying student transfers (for applicable leave codes).

Written documentation related to the withdrawal of each student must be maintained by the school in the student’s file.

Note that the proper use of leave codes is important for several reasons:

1. The Principal is accountable for accurate record keeping.
2. Falsification of student records is against the law and CPS policy.
3. School-based audits will be conducted, and schools will be expected to provide evidence that verifications were completed properly.
4. The verification process (for applicable leave codes) ensures data quality and accountability for our students. We should keep track of all students and make sure that those who leave our district connect with educational institutions wherever they go.

If in doubt about which leave code to use, consult with the Department of Education and Sports Policy and Procedures, Office of Teaching and Learning at 773-553-1216.

<tbody>
<tr>
<td>31</td>
<td>Transfer within CPS</td>
</tr>
</tbody>
</table>

Student is transferring to another Chicago Public, Contract, Charter, or Options school (that is, ANY school that has a CPS school ID in SIM).

1. The parent/guardian or emancipated student must request a transfer from the sending school in writing – including the signature of the party authorized to make this request and the name of the receiving school. This written request must be in the possession of the sending school.

   Or

   In the case of a sending school initiated transfer (e.g., “Finding False Representation of Address”),

   a. The sending school must retain a copy of the written notification sent to the parent of the school’s intent to transfer the student. This notification which includes the reason for transfer must be in the possession of the sending school.

   b. The parent must be allowed an opportunity to respond to the sending school. Any written response must be in the possession of the sending school.

   c. The written documentation as described above is maintained in the sending school records.

2. The sending school then makes the determination that the student should indeed be transferred to the receiving school.

3. A code 31 is entered for the student with the current date (today’s date). In the comment field, add the receiving school name and student reason for leaving.

4. Verification of Enrollment: If the transferred student does not subsequently re-enroll in a CPS school, that student may be counted as a dropout. Reference, the CPS Dashboard, DQI metric entitled Potential Dropout, for more information.

Best Practice

If the student is going to a CPS-affiliated Options school, SAFE school, or charter school, they should not be coded as an out-of-district transfer (code 32 or 33), as these are CPS schools. Code 31, which is automatically verified by IMPACT SIM upon the student’s enrollment in the Receiving School, is the correct leave code.

### 32 Trns to Chicago non-public
- Student is transferring to a non-public school located in the city of Chicago.
- Code requires subsequent verification

### 33 Transfer outside of Chicago
- Student is transferring to a public or private school located outside the city of Chicago.
- Code requires subsequent verification

1. The parent/guardian or emancipated student must request a transfer from the sending school in writing – including the signature of the party authorized to make this request and the name and location of the receiving school. This written request must be in the possession of the sending school.

   Or

   The sending school receives a written request for records from the receiving school indicating enrollment at the receiving school or the sending school receives written notification from the receiving school that the student has enrolled at the receiving school.

2. The sending school then makes the determination that the student should indeed be transferred out.

3. A code 32 or 33 (as appropriate) is entered for the student with the current date (today’s date). In the comment field, add the receiving school name and student reason for leaving.

4. The written documentation as described above is maintained in the sending school records.

5. Verification of Enrollment: When the sending school receives a written request for records from the receiving school, or when the sending school receives written notification from the receiving school that the student has enrolled at the receiving school, the sending school should then complete the student’s information on the SIM Verification of Transfers screen. Reference, the CPS Dashboard, DQI metric entitled Unverified Out of District Transfers, for more information.

   **Note:** see pages 9 and 10 for additional instructions on properly verifying a student’s transfer.

### Best Practices

*Transfer leave codes to another school (31, 32, 33) should only be used when the student is transferring to another school.*

*GED, Lincoln’s Challenge, and similar programs are not schools. These students are not transferring and should be withdrawn with the proper code (e.g., 87, 67).*

*Home school is a separate code (40). It is not an out-of-district transfer.*

34 Trans to residential inst
Student is transferring at the request of the parent or guardian to a residential institution or a facility providing long-term care, NOT within the district (i.e., a transfer that is NOT court-ordered, IEP-justified, or State Agency approved).

- Code requires subsequent verification

35 Lgl cmtd to correctnl inst
Student is legally committed to a State or Federal Correctional Institution.

1. The sending school receives written notification from the receiving institution that the student now resides at the receiving institution.
2. The sending school then makes the determination that the student should indeed be transferred out.
3. A code 34 or code 35 (as appropriate) is entered for the student with the current date (today’s date). In the comment field, add the receiving institution name.
4. The written documentation as described above is maintained in the sending school records.
5. Verification of Enrollment for Code 34 only: When the sending school receives a written request for records from the residential institution, or when the sending school receives written notification from the residential institution that the student has been admitted, the sending school should then complete the student's information on the SIM Verification of Out-of-District Transfers screen. Reference, the CPS Dashboard, DQI metric entitled Unverified Out of District Transfers, for more information.

Note: see pages 9 and 10 for additional information on properly verifying a student’s transfer.

40 Home Schooled
Student is being home schooled.

1. The parent/guardian must complete the CPS Statement of Assurance and provide a letter which describes the manner in which the parent will be instructing the child at home.
2. The sending school then makes the determination that the student should indeed be withdrawn.
3. A code 40 is entered for the student with the current date (today’s date).
4. The written documentation as described above is maintained in the sending school records.

41 Recd notification of death
The school receives notification of the student’s death

1. The school receives official notification of the student’s death.
2. A code 41 is entered for the student with the current date (today’s date).
3. The official notification is maintained in the school records.

1. Parent/guardian/emancipated student fills out and signs the Consent to Withdraw form. **Note:** Student must be at least 17 years old.

2. The school then makes the determination that the student should indeed be withdrawn.

3. A code 87 is entered for the student with the current date (today’s date).

4. The Consent to Withdraw form is maintained in school records.

**Best Practice**

Students under the age of 17 cannot "dropout" by law. This means they cannot be withdrawn with a code 87 - Consent to Withdraw.

</thead>
<tbody>
<tr>
<td>99 Did Not Arrive</td>

</table>

1. Code 99 is **only** applicable the first 20 days at the start of each school year. Schools must make a final determination of student status for all code 99 students by the 20th day.

2. If, at the end of the school year, a student is still withdrawn with a code 99, the student will be counted as a drop-out.

3. Reference the CPS Dashboard, DQI metric entitled “Invalid Leave Code” for more information.

4. After the 20th day, code 99 should **not** be used to withdraw a student from school.
Properly Verifying Student Transfers

Leave Codes 32, 33, and 34 require subsequent verification. Verification is completed on the school’s Verification of Out-of-District Transfers page in IMPACT SIM, examples of which are illustrated in the following screen capture:

Note the following:

1. Verification is a 2-step process. First, student records must be sent to the Receiving school per that school’s request. Only at that point, can the school complete the second step, which is to complete all of the verification fields in SIM on the Verification of Out-of-District Transfers screen. If the record exchange has not occurred, do not complete the fields in this screen.

   **Scenario:**
   Megan’s family moved to Maywood and filled out the proper paperwork to withdraw. Megan was withdrawn with a “33- Transfer outside of Chicago” leave code. Upon enrollment at Proviso East High School, the Proviso East staff contact your school for transcript records, which are then sent to the school. You can now fill out all of the required fields in the Verification of Out-of-District Transfers screen. The transfer is now properly verified. If all these steps are not completed, then the transfer stays unverified.

2. A parent telling you where they are going is not sufficient for verifying a transfer, nor is it sufficient to send records with the parents.

   **Scenario:**
   Tony’s family says they are transferring to Highland Park High School and completes the proper paperwork to withdraw. You provide the family with a copy of Tony’s transcript and health records upon leaving. However, you cannot complete the “Records sent” or “Date records sent” fields unless you connect with Highland Park High School directly and confirm his enrollment.
3. Be as specific as possible with regard to the “Receiving school” field. Include the school’s name, city, and state. If this isn’t known at the time the student transfers out, the school should enter whatever information it has into that field. However, if the transfer is being verified, the school should at that point have additional information about where the student has enrolled, and should update the “Receiving school” field at that time.

   ❖ Scenario:

   Ramon’s family is moving to Indianapolis, but does not know where he will be attending school. You enter “Indianapolis, IN” in the “Receiving school” field, but you are not yet able to complete the rest of the verification. A month later, Jefferson High School in Indianapolis, IN contacts you for Ramon’s records and you send them to the school. You can now update the “Receiving school” field with the name of the school. You can also complete the “Records sent” and “Date records sent” fields.

4. If the student intended to transfer, and you later learn that the student did not enroll in another school, you do not need to make any changes to the student record. This will be recorded as an unverified transfer, which will count as a dropout. The school is correct in leaving the transfer leave code in place, as this is consistent with the information the school had at the time the student withdrew.

   ❖ Scenario:

   Danielle’s family says they are moving to Homewood and enrolling Danielle in Homewood-Flossmoor High School. Danielle is withdrawn with a “33 - Transfer outside of Chicago” and you enter “Homewood-Flossmoor High School, Homewood, IL” in the “Receiving school” field. However, Homewood-Flossmoor High School never contacts you, and you learn from Danielle’s friends that she is not enrolled in school. You do not need to make any changes to the leave code or the Verification of Out-of-District Transfers screen. Danielle will remain an unverified out-of-district transfer.

5. Keep any records used to assist in the verification in case of an audit.

6. For questions about policies and procedures, contact the Department of Education and Sports Policy and Procedures, Office of Teaching and Learning at 773-553-1216. For technical questions or issues, contact the IT Service Desk at 773-553-3925, option 2 for IMPACT.
